

EUROPEAN CAPITAL MARKETS INSTITUTE

Informing Policy on European Capital Markets

The European Capital Markets Institute (ECMI) conducts independent research and informs debate and policymaking on a broad range of issues relevant to capital markets. Through its various activities, ECMI facilitates interaction among market participants, policymakers and academics.

ECMI Annual Conference, November 2016

ECMI was established as an independent non-profit organisation in 1993, in a collaborative effort by the European Federation of Financial Analysts Societies (EFFAS), the Federation of European Securities Exchanges (FESE) and the International Capital Market Association (ICMA). Membership of ECMI is open to private companies/organisations, regulatory authorities and university institutes. Since 2005, ECMI has been managed and staffed by CEPS, a highly reputed, independent think tank in Brussels.

Through its **Commentaries** and **Policy Briefs**, ECMI analyses the latest regulatory developments and puts forward proposals and recommendations to help shape the regulatory and policy debate. ECMI also produces detailed **Research Reports** on key policy issues and market developments. As well as conducting in-house research, ECMI responds to calls for proposals from external entities and hosts contributions from high profile researchers.

ECMI regularly organises workshops, seminars and **Task Forces** on a variety of issues facing European capital markets. Participation in **ECMI events** offers multiple networking opportunities. The Annual Conference is a unique event in Brussels, bringing together over 30 high level speakers and more than 300 participants.

The yearly edition of the **Statistical Package** is a comprehensive collection of the most relevant data on various segments of European and global capital markets, covering equity markets, debt securities, securitisation, covered bonds, exchange-traded and over-the-counter derivatives, asset management, mutual funds, insurance companies and pension funds.

ECMI also publishes a quarterly **Newsletter** to inform members of recent and upcoming research projects, task forces, conferences and meetings, and other relevant information on European capital markets.

The **Annual Activities Report** is publicly available, as are the other publications, at:
